REVIEW

Rider obsession

Christian Meier's coffee machine

Christian Meier is a professional cyclist who has won the Tour de France. He is also a coffee enthusiast and has designed a coffee machine in his honor.

Christian Meier's Rocket Rocket Premium, handmade in Milan.

Christian Meier's Rocket Rocket Premium is a handmade coffee machine designed in Milan. It is a tribute to the cyclist's love of coffee and his desire to create a machine that is both functional and aesthetically pleasing. The machine is made of high-quality materials and features a unique design that is inspired by Meier's racing career.

The Rocket Rocket Premium is a semi-automatic coffee machine that is designed to produce a perfect cup of espresso. It features a built-in grinder and a pressure gauge, and it is capable of producing coffee at a pressure of 9 bars. The machine is also equipped with a steam wand and a milk frother, making it a versatile machine for coffee lovers.

Meier's Rocket Rocket Premium is a limited-edition machine, and it is available for purchase through the company's website. The machine is priced at a premium, but it is a reflection of the high-quality craftsmanship and attention to detail that Meier has put into the design.

For more information on Christian Meier's Rocket Rocket Premium, visit the company's website at www.rocketrocket.com.
